### **JERSEY ENDURO SS £62**

Enduro riding is a rapidly growing MTB market. It's a combination of Cross Country and Freeride. For enduro riders, Bioracer has developed a completely customizable jersey that combines the lightweight characteristics of a Cross Country jersey with a loose, comfy fit of a Freeride jersey.

Front and back panel are made of our well-known matrix fabric. For extra breathability we have put airmesh inserts into the side panels and sleeves.

The jersey is finished with a zip cargo pocket on the back.

### **JERSEY DOWNHILL LS PROF V-COLLAR £55**

V-collar gives a slightly looser fit around the neck  
Loose torso fit, suited for wearing extra body armour  
Strong Airtex fabric on the front, back and arm panels  
Netz ventilation panels on the jersey sides  
Wrist cuffs on the sleeve ends  
100% customizable

### **FREESTYLE SHORT ZIPPER POCKETS £78**

Heavy duty main fabric  
Stratos side panels  
Elastic waistband with cordstopper  
Zip pockets  
Enduro and Trail are types of MTB riding we love. That's why we developed a short that's light enough to tackle those climbs, but durable and rugged enough to withstand being raced hard. The heavy duty main fabric, combined with Stratos side panels, makes for a light pair of shorts. The elastic waist band with cordstopper keeps the shorts in place. The zip pockets provide extra secure storage space.

### **JERSEY DOWNHILL SS PROF V-COLLAR £52**

V-collar gives a slightly looser fit around the neck  
Loose torso fit, suited for wearing extra body armour  
Strong Airtex fabric on the front, back and arm panels  
Netz ventilation panels on the jersey sides  
100% customizable
